

PALAIS DES CHIMÈRES — CONTENT MAPPING

Робоча Word-версія для перегляду і друку. Основний файл для редагування — Excel.

Як працювати з маппінгом

- Редагуйте колонку «Новий / адаптований контент» в Excel-файлі; у Word-версії вона залишена як порожнє поле для орієнтиру.
- Не змінюйте Content ID: це стабільний ключ для внесення майбутніх змін у код.
- Порожнє поле нового контенту означає, що поточний текст можна залишити без змін.
- EN і FR редагуються окремо; shared означає, що поточний сайт використовує спільний текст для обох локалей.

Усього рядків контенту: 345. Excel також містить аркуші Products та Images & assets з технічними деталями.
